

ED-series

Drying and storage cabinets for endoscopes

Steelco ED 150 & 250 endoscope drying and storage cabinets provide a controlled environment for storage of flexible endoscopes.

Our standard features include:

- Vertical hanging endoscope storage of 9-18 instruments
- Active channel drying with sterile compressed air
- HEPA filtration of heated drying air
- UV-light disinfection of air flow circuit
- “Air curtain” assuring overpressure in cabinet with opened door
- Closed stainless steel cabinet with tempered glass swing door(s)
- Ergonomic pull out slides with adjustable instrument supports, assuring scopes not touching another and safe positioning of distal tip and light source plug
- Optional pass-through availability
- Lockable door via key lock or operator ID verification
- Endoscope hook-up sets for all brands & models
- ED 250 models featuring traceability package with full color touch screen panel, barcode scanner, documentation interface and endoscope connection sensing

Our ED-series endoscope drying and storage cabinets are exceeding AORN & AAMI recommendations. Storage times of up to 30 days are independently certified by third parties.

STEELCO USA Inc.

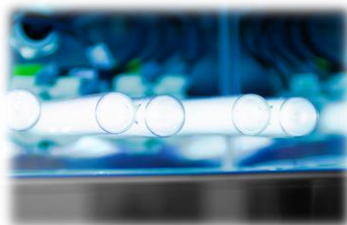

Models:

ED 150-1	9 flexible endoscopes, single door	38.1" W x 30.9" D x 89.4" H
ED 150-2	9 flexible endoscopes, pass-through	38.1" W x 33.1" D x 89.4" H
ED 150-3	18 flexible endoscopes, single door	67.2" W x 30.9" D x 89.4" H
ED 150-4	18 flexible endoscopes, pass-through	67.2" W x 33.1" D x 89.4" H
ED 250-1	9 flexible endoscopes, single door	38.1" W x 30.9" D x 89.4" H
ED 250-2	9 flexible endoscopes, pass through	38.1" W x 33.1" D x 89.4" H
ED 250-3	18 flexible endoscopes, single door	67.2" W x 30.9" D x 89.4" H
ED 250-4	18 flexible endoscopes, double door	67.2" W x 33.1" D x 89.4" H

Utility requirements:

Electrical connection: 110V, 60Hz single phase (ED 150-1&2, ED 250-1&2)
2 x 110V, 60Hz single phase (ED 150-3&4, ED 250-3&4)

Total power: 1.85 kW (ED 150-1&2, ED 250-1&2)
3.70 kW (ED 150-3&4, ED 250-3&4)
